

# VUE

## REFINED FIXED WOOD SHELVING SYSTEM

---

### What is VUE Shelving?

VUE is the most advanced fixed wood storage system on the market. It provides the look and strength homeowners and residents expect. **No exposed hardware and patent-pending gap-free installation** creates a clean, polished look. VUE is the perfect setup up from ventilated wire while staying within budget.

**MEETS MARKET DEMAND**

**GAP-FREE INSTALLATION**

**SUPERIOR STRENGTH**

# VUE

## REFINED FIXED WOOD SHELVING SYSTEM

---

### Why Choose or Specify VUE?

- New patent-pending design for gap-free installation.
- No exposed screws create a clean, polished look.
- Installs after paint and requires no painting or caulking. No blocking necessary.
- Installs easily into metal or wood studs.
- Patented Tri-Loc anchor hardware and heavy duty brackets for superior strength.
- Manufactured with  $\frac{3}{4}$ " thick thermal laminate board shelving with radius edge-banding.
- Green manufacturing.....
- No harmful VOCs.
- **Seamlessly integrated and supported by our Bid360 and Closet Selector softwares.**

# Single Family | Multifamily

EXCELLENT OPTION FOR BOTH MARKETS

---

## Single Family

- Ease of installation – **“New Pro” friendly.**
- Available as Job Orders from Closet Selector – **direct to you components for single homes.**
- Provides builders and homeowners with the perfect, built-in wood system that is a step up from Wire.
- Clean finish makes closets look and feel like a true, traditional built-in system.
- Upgrade options including towers w/ drawers and baskets.
- “The New Standard”.

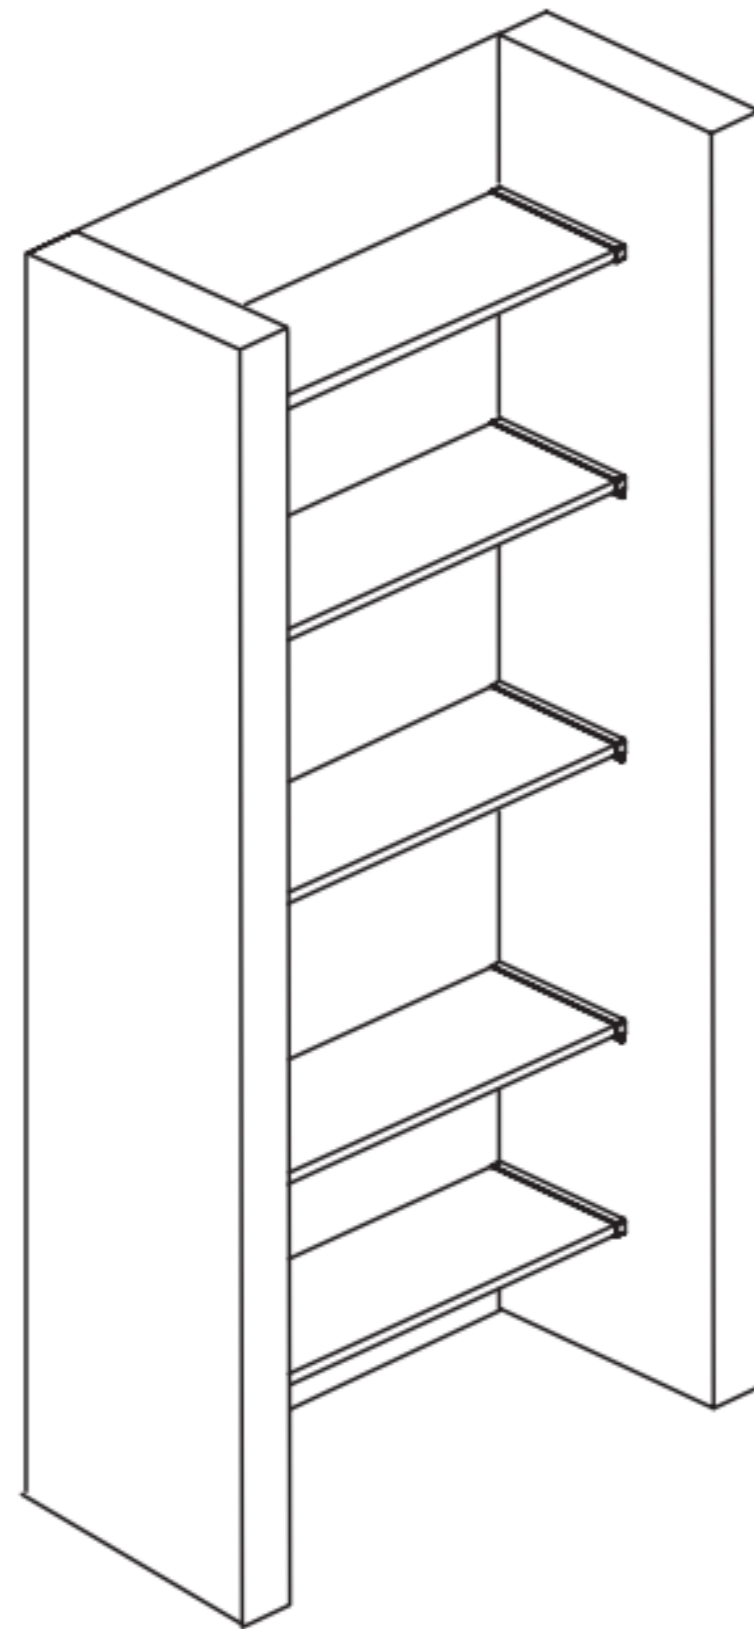

## Multifamily

- Ease of installation – **installs as fast as wire with use of installation template.**
- Optimized parts and pieces – we’ve designed VUE with multifamily developments in mind. **Pack sizes, shelf lengths, shipping boxes, all optimized** to make it easier to get in and out of MF developments.
- Provides ODs with economical shelf and rod solutions that differentiates properties and satisfies residents, especially above wire shelving.
- Stock-able materials so there’s no sacrificing of time and budgets.

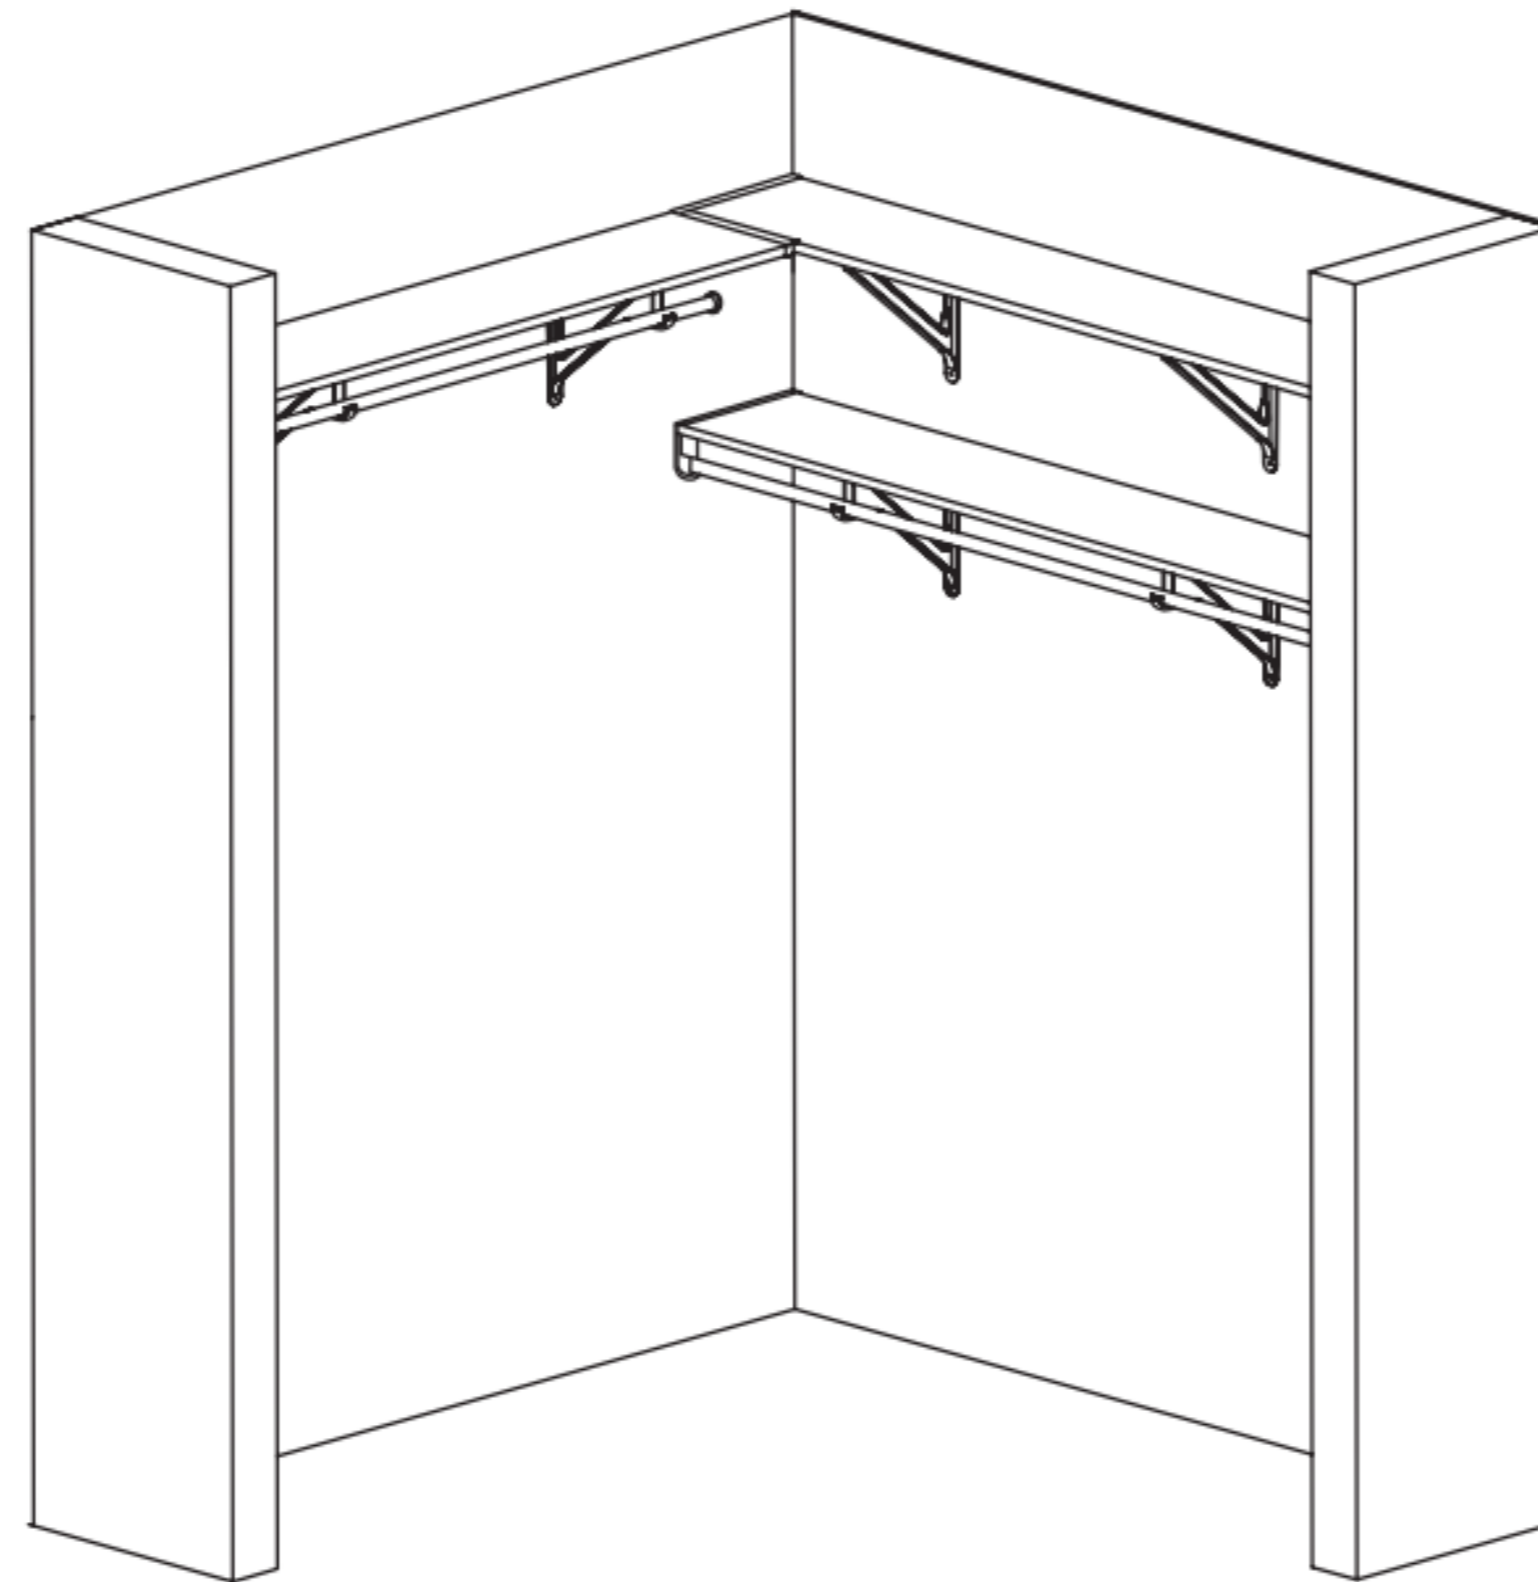

# VUE Storage System

EXAMPLE OF FINAL INSTALLED PRODUCT

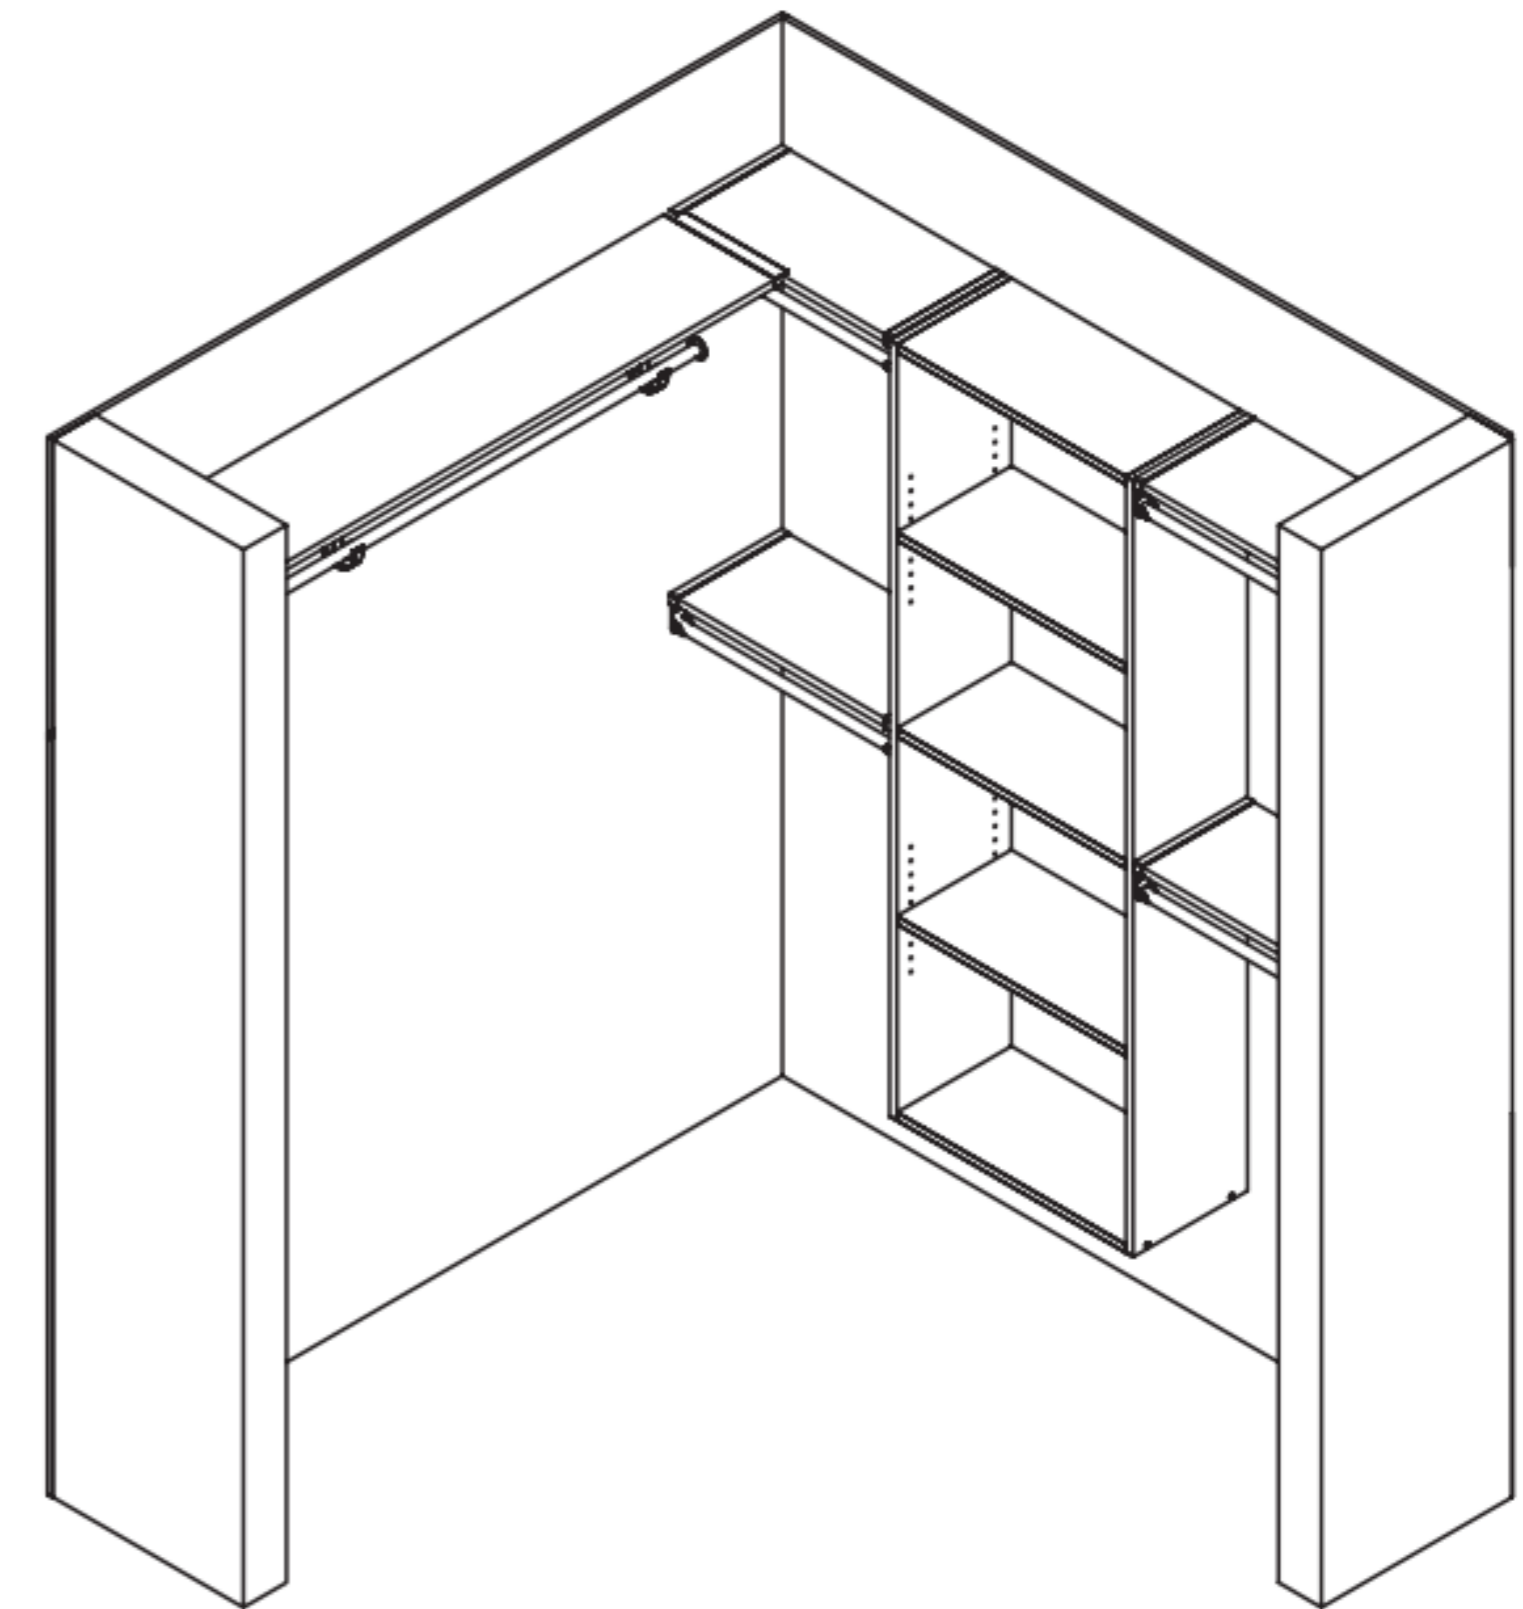

---

No Shelf Brackets needed in <36" wall-to-wall reach-in closets.

Economically maximize storage space with wall-to-wall single hang and double hang storage. No exposed hardware for a clean, polished look.

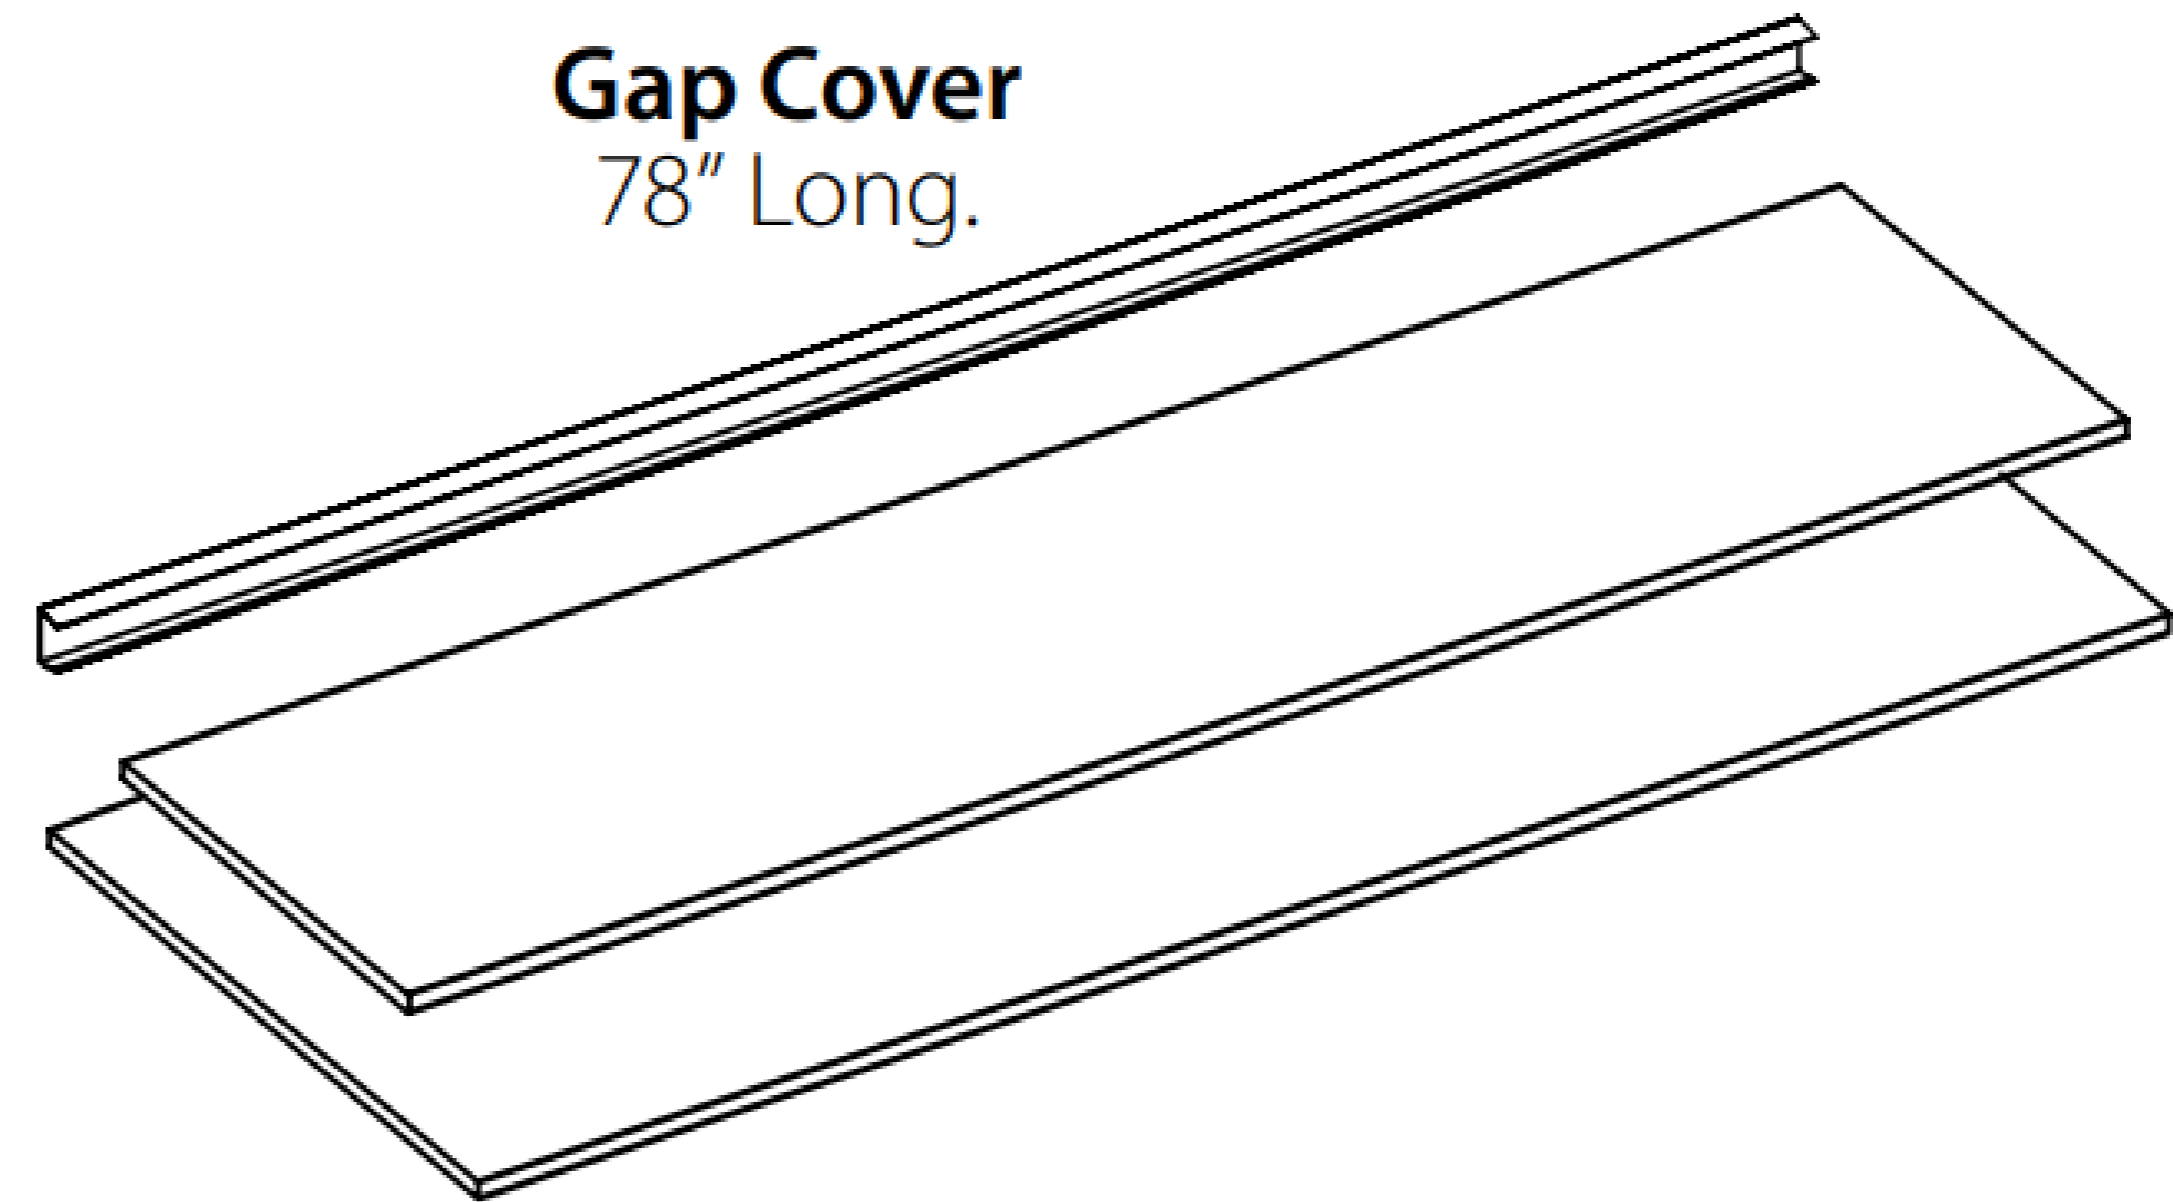

Upgrade a walk-in closet with a VUE Shelf Tower (accessories available).

# VUE Shelving Options

## 2 SHELF OPTIONS

### Shelving Details

- Shelves are designed to accommodate all areas of the home – 12" for typical hanging setups and 16" for typical **non-hanging** such as pantries or linen closets.
- 12" depth is standard.
- 16" depth are available to accommodate additional storage needs where required.
- All shelf types meet 85lbs per linear foot hold strength.
- **78" and 96" length options.** Please note that only 78" length is currently available in Bid360.

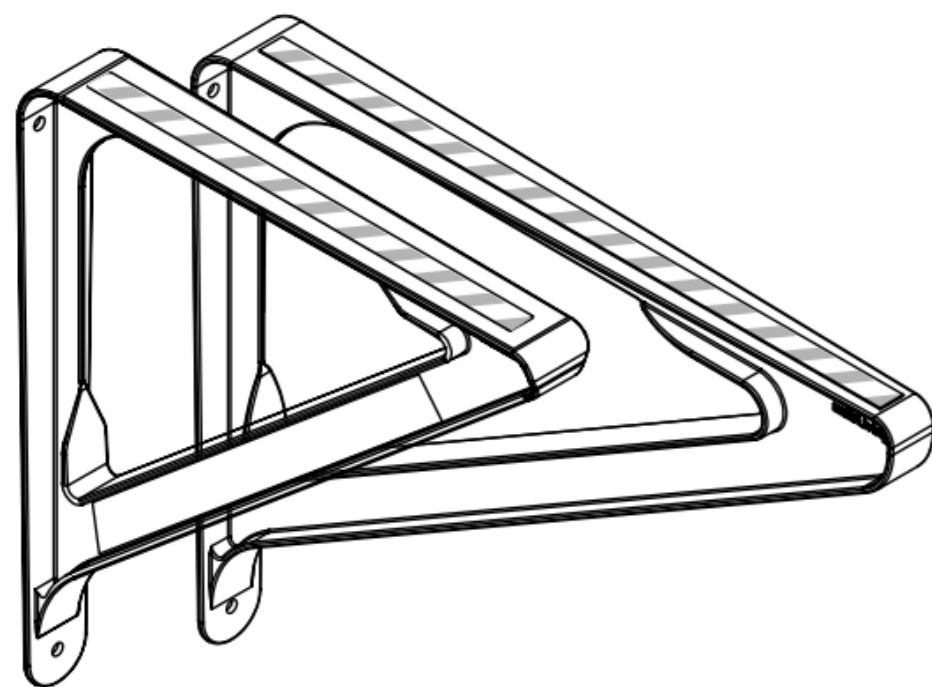

# VUE Mounting Hardware

GAP-FREE PROPRIETARY HARDWARE AND ANCHORING SYSTEMS
